

TEHRAN URANUS

WATER-BASED SEALER(500 Series Uraseal)

APPLICATION

- ۱- Seal the up and down of metal cans and containers
- ۲- Resistant against water, oil, motor oil, and different solvents and food materials

TECHNICAL DATA

Shade	gray , according to demand
Viscosity	(105± 5) KU at 25°C
Specific Gravity	(1.2± 0.1) gr/cm ³
Application Surface	metal surface ,tin plate
Solid Content	(48-50)%
Stoving Temperature	(80±10) °c at 15 min
Touch Drying	(10-15) min
Adhesion	very good

STORAGE CONDITION

Should be stored indoors in the original ,unopened and undamaged containers in a dry place at storage temperatures between (20-30)°c.

STABILITY

Under the above mentioned storage conditions the stability of water –based sealer will be 6 months ex-work.

APPLICATION STEPS

- ۱- Clean substrate of all contamination .
- ۲- Dilute with water . apply on the surface.
